## **PREFACE**

The District Disaster Management Plan (DDMP) 2025 updated by District Disaster Management Authority is an effective plan which envisages several measures that can be taken in the event of any kind of disaster. The District Disaster Management Plan has been updated by collecting information submitted by major response departments including Revenue Circle Offices of the district. Attempts have been made to update the DDMP as per the format and template provided by ASDMA. While updating the plan, the guidelines laid down in the Assam Disaster Management Manual 2015 has also been followed.

The plan deals with Risk Assessment and Vulnerability Analysis, identification of disaster-prone areas, Response structures, Inventory of Resources, Standard Operating Procedures, Directory of Institutions and key individuals. The plan is prepared to help the district administration focus quickly on the essentials and crucial aspects of both preparedness and response.

I hope that district level officials as well as other stakeholders will carefully go through the DDMP and stand alert to emergency situations. It is also expected that all stakeholders will acquaint themselves with the plan. I will also be pleased to receive suggestions and inputs to be incorporated in the plan in due course.

**District Commissioner & Chairman  
DDMA, Nalbari**

## CHAPTER-I

### INTRODUCTORY CHAPTER

#### 1.1 Introduction:

At the very outset, disaster refers to a serious disruption of the functioning of a society, causing widespread human, material, or environmental loss, which exceeds the ability of the affected society to cope using its own resources. To put it in other words, it is the occurrence of a sudden mishap/calamity/grave occurrence that disrupts the basic fabric and normal functioning of a society (or community).

#### Types of Disasters observed in the district :

##### Natural

##### Man Made

Earthquake

Road Accident

Flood

Rasta Roka

Heavy Rain

Pollution

Cyclone

Chemical

Drought

Pest Infection

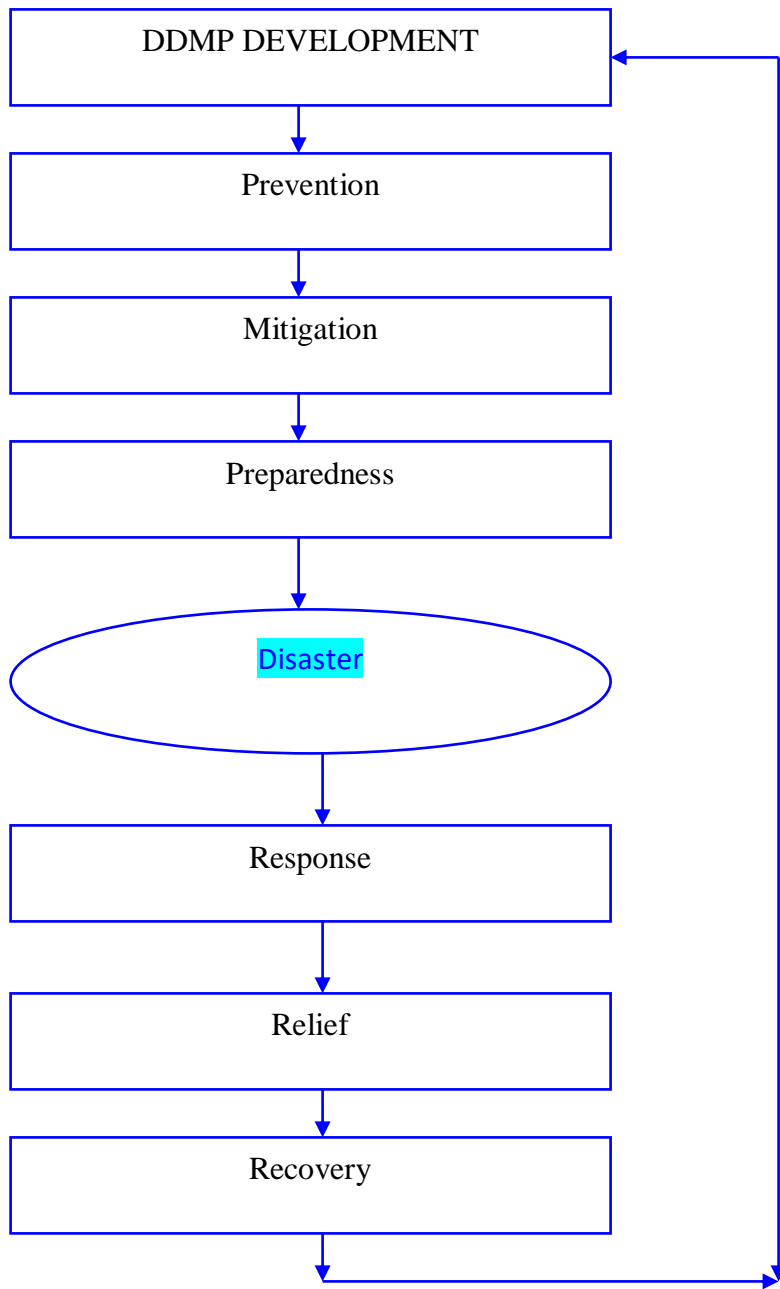

Hailstorm

#### 1.2 Vision

The Nalbari district experiences several natural disasters like storm, flood, erosion, fire etc periodically at regular intervals. Keeping in mind these frequent disastrous happenings in the district that cause major setbacks to lives, livelihoods and property (both movable and immovable), the District Disaster Management Authority (DDMA) felt the urgency of the need of staying prepared to face these adverse situations well in advance. The devastation caused by floods and storms has posed a challenge before the DDMA to rethink and redefine the preparedness and the mitigation strategies to analyze each and every decision-making process to gear up the rescue and restoration during such situations as well as building up the capacity to face further calamities in future. The DDMA has realized the necessity to compile a plan to prevent/minimize the loss and also to facilitate faster recovery during an emergency of this kind. This booklet is more of a guidebook, which can help the administration, remain better prepared for floods and cyclones to safeguard lives, livelihoods and property.

In broadest terms, the vision of the plan will be - fail proof communication, authentic and accurate database, documented and rehearsed to be activated in the shortest possible time with minimum simple orders and procedures ensuring active participation by the administration, communities and volunteers at all levels, making optimal utilization of human and material resources with no gaps or no overlaps to prevent/minimize loss to lives and property and to ensure fastest restoration of the situation.

Chart Representation of the DDMP:

### 1.3 Evolution

The present **District Disaster Management Plan (DDMP)** is a updated and modified version of the earlier District Disaster Management Plans. It has been a constant endeavour to update the existing disaster management plan and strengthening the hands of the District Administration by well equipping the District Emergency Operation Centre (DEOC).

### 1.4 Objectives

The objectives behind the preparation of the District Disaster Management Plan is

- ❑ To mitigate impact of natural and man-made disasters through preparedness at District, Block, Gram Panchayat and Village level.
- ❑ To provide effective support and resources to all the concerned individuals, groups and departments in disaster.
- ❑ To assist the line departments, block administration, communities in developing compatible skills for disaster preparedness and management.
- ❑ To disseminate factual information in a timely, accurate and tactful manner while maintaining necessary confidentiality.
- ❑ To develop immediate and long-term support plans for vulnerable people in/during disasters.
- ❑ To create awareness among the people about hazard occurrence and increase their participation in preparedness, prevention, development, relief, rehabilitation and reconstruction process.
- ❑ To have response system in place to face any eventuality.
- ❑ To affect or elicit the least possible disruption to the normal life process when dealing with individuals in disaster.
- ❑ To ensure active participation by the government administration, communities, NGOs, CBOs and volunteers at all levels making optimal utilization of human and material resources at the time of disaster.

## CHAPTER-II

### OVERVIEW OF THE DISTRICT

#### 3.1. Locations, Area and Administrative Division

The Nalbari District is situated in between 26°N and 27° N latitude and 91° E and 97° E longitude. The northern side of the district is bounded by the Indo-Bhutan International boundary and the southern side by the mighty Brahmaputra. The Darrang and the Kamrup District falls in the east and the Barpeta District in the west.

#### 3.3 Geology and Geomorphology

The Soil condition of District is a heterogeneous one. The Soil of the northern part of the district is clayey and loamy whereas middle part is loamy and sandy. The Soil of the southern part of the district is composed of sandy soil.

#### 3.4 Physical Features

The entire area of the district is situated at the plains of the Brahmaputra Valley. The tributaries of the Brahmaputra, Nona, Buradia, Pagaldia, Borolia and Tihu which are originated from the foothills of the

Himalayan Range are wild in nature and have enormous contribution towards the agrarian economy of the district.

**3.5 Climate and Rainfall**

The District has a sub-tropical climate with semi – dry hot summer and cold winter. During summer, generally during the months from May to August, heavy rainfall occurs for which the district experiences flood. The district experiences annual (average) rainfall and humidity ranges from @ 1500 mm to 2600 mm and @ 75% to @ 80 % respectively.

**3.6. Socio-Economic Features**

Agriculture is the major source of income in the district of Nalbari. But many people have small business. Some people in the Municipality and other town-areas have sound business of hotels and restaurants. Total nos of farm families in the district 64981 and the total net crop area is about 67861 Ha (As per Deptt. Of Agriculture, Nalbari).

## CHAPTER-III

### HAZARD, VULNERABILITY, CAPACITY ANALYSIS

#### 3.1. Disaster Specific proneness to Various Types of Disasters:

TYPE OF HAZARDS	TIME OF OCCURRENCE	POTENTIAL IMPACT	VULNERABLE AREAS
Flood	May -September	Loss of life, livestock, crop and infrastructure	Entire District
Storm	March-May	Loss of life, crop, infrastructure and animals	Entire District
Epidemics	Anytime	Loss to human life	-do-
Fire Accidents	March-May	Human Loss and house damage	-do-
Earthquake	Anytime	Loss of Life, Livestock and Infrastructure	-do-

#### 3.2. Disaster Probability:

##### Flood:

During rainy seasons, all the major rivers in the district carry gallons of water pose potential threat of flood. Things get worse as the flood devastates the crops in the affected area and is also a source of epidemics.

##### Strom:

Nalbari district is highly vulnerable to storm, thunderstorm and hail storm. Storm ordinarily bring in their trail heavy rains causing s floods and saline inundation.

##### Fire Accidents:

Fire accidents present a serious problem to the houses in Nalbari district. This is mostly due to the peculiar housing pattern adopted in the villages. These houses have generally mud-built walls with thatched roofs made out of timber, bamboo and straw. They spring up in clusters. Any occurrence of fire destroys houses and properties thereby causing serious damage to the affected people.

##### Earthquake:

Though Nalbari district has not experienced any major earthquake in recent past causing damage to lives or infrastructure, the possibility can never be ruled out as it can happen any time.

### 3.3. Ranking and Probability of Disaster Episodes in the District:

Based on the previous disasters experienced by the district in the past, probability of flood ranks first. Accordingly, the occurrence of other disasters such as storm, fire accident, drought, epidemic and earthquake rank as orderly mentioned.

Disastrous Event	Year of Occurrences
Flood	2000, 2001, 2002, 2003, 2004 (Major), 2005, 2008,2012, 2016,2019,2020,2022,2023,2024

**Total flood affected villages: 388 (About 82% villages of Nalbari district is more or less flood affected)**

### 3.6 Flood Affected Region in the District:

Amongst the flood prone district, Nalbari is one of the highly flood prone District in the State of Assam. The Nalbari Water Resources Division covers mainly Stream, Brahmaputra with tributaries like Pagladia, Mora-Pagladia, Baralia and Noona which are flashy in nature and cause large scale devastation in every year flood.

**Embankments:** There are 11 Nos of embankment in the district on both bank of river as given below. The river wise dyke/embankment system with length of embankment under this Division is as follows:

1. B/Dyke River Brahmaputra (R/B)----	27.20 K.M
2. B/Dyke River Pagladia (R/B) -----	5.80 K.M
3. River Pagladia (L/B) -----	43.00 K.M
4. River Pagladia (R/B) -----	41.00 K.M
5. River Noona (L/B) -----	6.50 K.M
6. River Noona (R/B) -----	24.00 K.M
7. River Mora-Pagladia (L/B) -----	8.36 K.M
8. River Mora-Pagladia (R/B) -----	8.72 K.M
9. River Baralia (L/B) -----	10.00 K.M
10. River Baralia (R/B) -----	4.30 K.M
11. Nadla Drainage Channel (L/B)-----	7.50 K.M
12. Nadla Drainage Channel (R/B)-----	7.50 K.M
13. River Buradia (L/B) -----	4.00 K.M
=====	
Total Length-----	197.88 K.M

These embankments were constructed couple of decades before, needs raising and strengthening in some particular locations. Regular maintenance and repair during Flood is necessary, hence maintenance through Master Roll labour has been abolished.

**The Northern Region:** Herein flood occurs on account of over-spilling of the waters of [in west to east order] Tihu River, Mora Pagladia River, Kanaikhunda Jan Stream, Jarinadi Stream, Buradia River, Pavanoi Stream, Chengnoi Stream, Pagladia River, Ghagra stream, Nona River, Borolia River and other minor streams in between; as well as in case of breach in the protecting embankments on their banks. All these rivers/ streams are tributaries/ sub-tributaries of Brahmaputra River, emanating from Bhutan in the North. Hence, occurrence of flood herein is dependent on the rainfall in Bhutan, and on the strength of the protecting embankments. It covers the villages of Northern Tihu [Namati Mauza] & Barama Circles, Banekuchi Circle, Northern Nalbari Circle (Batahgila Mauza & the part of Khata Mauza north of NH-31] and Ghograpar Circle.

**The Western Region:** Herein flood occurs on account of over-spilling of the waters of Tihu River, Mora Pagladia River, Buradia River, Nadla Channel and other minor streams and channels in between; as well as in case of breach in the protecting embankments on their banks. All these rivers/ streams are tributaries/ sub-tributaries of Brahmaputra River, emanating from Bhutan in the North. Hence, occurrence of flood herein is dependent on the rainfall in Bhutan, and on the strength of the protecting embankments. It covers the villages of Southern Tihu Circle [Tihu & Nambarbhag Mauzas] and Paschim Nalbari Circle.

**The Central Region:** Herein flood occurs in case of water logging of rainwaters, besides overflowing of the various minor streams and channels dotting the region; and also on account of backward water-flow from the main

Brahmaputra River. Therefore, occurrence of flood herein is dependent on heavy rainfall in the region itself as well as in the upper reaches of Brahmaputra River and its tributaries from the North. It covers the villages of the Southern Nalbari Circle (Bahjani Mauza & the part of Khata Mauza south of NH-31] and Western Barbhag Circle [west of Pagladia River].

**The Eastern Region:** Herein flood occurs on account of over-spilling of the waters of [in west to east order] Pagladia River, Sathajan Stream, Borolia River [Southern Channel], Ghagra stream, Nona River, Borolia River [Eastern Channel] and other minor streams and channels in between; as well as in case of breach in the protecting embankments on their banks. All these rivers/ streams are tributaries/ sub-tributaries of Brahmaputra River, emanating from Bhutan in the North. Hence, occurrence of flood herein is dependent on the rainfall in Bhutan, and on the strength of the protecting embankments. These places are also among the lowest areas in the District. Therefore, flood in almost a certainty in this region. It covers the villages of Eastern Barbhag Circle [east of Pagladia River].

**The Southern Region:** Herein flood occurs directly on account of the over spilling of Brahmaputra waters; as well as by the over spilling of waters of Pagladia (*confluence part*), Borolia (*Bhoiratola channel*) and Mora Chawlkhowa Rivers, all tributaries of Brahmaputra River emanating from Bhutan in the North. Therefore, the occurrence of flood herein, although dependent on heavy rainfall in Bhutan as well as in the upper reaches of Brahmaputra River, is almost a certainty in this region as well. It covers the villages of the Barkhetri Circle.

3.7 **Impact of flood in the district:** A brief scenario of impact of flood is summarized as follows

SL No	Year	Nos of Circle affected	Nos of Village affected	Total Population Affected	Total Crop area Affected	Total affected Livestock	Total loss Of Livestock	Total Human loss

### 3.11 CAPACITY ANALYSIS

#### **Inventories and Evaluation of Resources Analysis:**

Analysis and assessment of authentic assessments help for prompt and effective response during emergency. The resources necessary for disaster preparedness and during and after disasters are listed below:

- 3.11.1 List of Equipments and Machineries:** The list of Equipments and Machineries available with Fire & Emergency Services is enclosed at **Annexure-VII**
- 3.11.2 List of Equipments & Machineries identified by PWRD is enclosed at Annexure-VIII**
- 3.11.3 List of resources available with PHE Department is enclosed at Annexure-IX**
- 3.11.4 Boats:** List of Machine & Country boat available in the district is enclosed at **Annexure-X.**
- 3.11.5 Shelters:** The list of Shelters identified by Circle Office at various locations be used for Shelters during any disaster situation is listed in **Annexure-XI.**
- 3.11.6 Raised Platform:** The list of raised platform is enclosed at **Annexure-XVIII**
- 3.11.7 Food:** An average daily stock position of essential commodities under Nalbari district is shown in **Annexure- XII.**
- 3.11.8 Communications and Media:** Wireless and V.H.F. stations are the quickest means of communication of weather warning and other important messages on flood and cyclone. Regular wireless, V.H.F. sets are available in DEOC as well as in Police Station and Police Outpost. All revenue circle office and blocks are connected with telephones. Concerned Officers will ensure proper working of telephone during flood/Cyclone. District Engineer, Telephone Exchange, Nalbari, S.D.O Telephone Exchange,

Nalbari may be requested to take steps to ensure proper working during cyclone, flood and emergency situation.

- 3.11.9 **Trained volunteers:** The list of trained AAPDA MITRA Volunteers is enlisted in Annexure-XIII  
 3.11.10 **Blood Donor:** The list of blood donor identified by Revenue Circle Offices is enclosed at Annexure-XIV  
 3.11.11 **Shelter places of Livestock:** Animal Husbandry & Veterinary Department has identified shelter places from livestock and the same is enlisted at Annexure-XV

**3.11.12 Motorable Roads:** The motorable roads during disaster are:

National Highway 31 [fully pucca].

**The list of emergency health facilities available in the district is enlisted in Annexure- XVI**

3.11.14 **List of potential NGOs/ CBOs/Local Institutions:** The Nalbari district has numbers of registered and unregistered voluntary organisation, community-based organisation, NGOs who can deliver their voluntary services during emergency. This organisation has been involved in mobilization of community, organising community awareness programme and extending their helping hand to the DDMA during emergency. The list of some potential NGOs for disaster management is enclosed at Annexure-XIX

During emergency necessary help would be mobilized from various organizations like Namghar Samittee, Masjid Committee, Youth club, Village Development Community and such other institution existed in the locality. B) Women's Organizations: There are a number of Mahila Sammittees in the District, whose help would be invaluable in reaching out to the affected female population during floods.

**Students' Organizations:** The major student organizations whose units are present in the District are (1) All Assam Students' Union [AASU]; (2) *Asom Jatiyatabadi Yuba Chatra Parishad* [AJYCP]; (3) National Students Union of India [NSUI]; (4) All Bodo Students' Union [ABSU]; (5) All Assam Minorities Students' Union [AAMSU] and (6) *Akhil Bharatiya Vidyarthi Parishad* [ABVP]. These student organisations can provide volunteers for the Disaster Management Task Forces at the village-level.

3.11.15 **Capability for Flood Forecasting of Water Resource Deptt:** Water Resource Division, Nalbari has prepared plan of action for flood forecasting and management as follows. The prediction of floods would be done as follows.

**Monitoring of Water Level of Local Rivers:**

The Water Level of the Brahmaputra River and its tributaries like *Mora Pagladia*, *Pagladia* and *Nona* Rivers, are being monitored by the Water Resources Deptt., Nalbari Division. The Water Level data would be obtained from gauges installed at specific points in the rivers concerned. Crossing the Warning Level implies the probability of floods in the near future, while surpassing the Danger Level signifies actual occurrence of floods.

**Action:** The Water Resources Dept. (Nalbari Division) is to the Water Level data obtained from installed gauges [*along with the Warning/ Danger Level marks; and the information whether the present levels concerned are rising/ falling/ remaining steady*], by WT message on a daily basis without fail to the Deputy Commissioner (Nalbari), District Emergency Operation Centre, and all the Circle Officers of the District

**Monitoring of Water Level of Brahmaputra in its Upper Reaches:**

Report on the Water Level in the upper reaches of Brahmaputra River [i.e. at Dibrugarh], along with the respective Warning/ Danger Level marks, would be regularly published in the form of Daily Bulletins published by the **Central Water Commission** of Govt. of India. These *daily bulletins* can be obtained from the website [www.india-water.com](http://www.india-water.com).

Crossing of the Warning/ Danger Level by the Brahmaputra River at Dibrugarh would imply the probability of the same phenomenon in Nalbari District after 24 to 72 hours.

**Action:** The District Emergency Operation Centre within the Nalbari DC Office premises is to collect the above-mentioned requisite information by assessing the website concerned [[www.india-water.com](http://www.india-water.com)], and disseminate the same among the Circle Officers of the District.

**Control Room of Water Resource Department:** *Water Resource Department has set up control room at their Office Premises round the clock for the flood season.*

In charge of Control Room	Contact No
Ritankur Baishya, AE	8486970739
Sri Chayanika Barman	70023-91303

#### **Flood Forecasts of CWC & NDMD:**

The **Central Water Commission** of Govt. of India provides regular *Flood Forecasts*, which can be easily assessed at its associated website [www.india-water.com](http://www.india-water.com) and its own website [www.cwc.gov.in](http://www.cwc.gov.in). The **National Disaster Management Authority** also provides forecasts of natural disasters (including floods) in its website [www.ndmindia.nic.in](http://www.ndmindia.nic.in).

**Action:** The District Emergency Operation Centre within the Nalbari DC Office premises is to collect the above-mentioned requisite information by assessing the websites concerned, and disseminate the same among the Circle Officers of the District.

#### **Prediction of Monsoon Rainfall:**

Prediction of monsoons is done by the *Indian Meteorological Department*, which can be obtained by *surfing* its official websites [www.imd.gov.in](http://www.imd.gov.in) and [www.imd.ernet.in](http://www.imd.ernet.in).

#### **Monitoring of Water Level of tributaries of Brahmaputra in their Upper Reaches:**

The flood-creating tributaries of Brahmaputra *viz.* Tihu, Mora Pagladia, Buradia, Pagladia, Ghogra, Nona, Borolia Rivers and a few minor streams, all emanate from Bhutan in the North; and flow through Baska District before entering Nalbari District. E.g. Pagladia River is formed by joining of Darranga and Kala Rivers with the main Pagladia River; Ghagra River starts out as Matanga River; Nona River starts out as Suklai River; and Borolia River starts out as Balti River (*all within Tamulpur Circle of Baska District*).

If it rains in Bhutan (*which can be easily observed from the border villages of Baska District*) or/ and there is excessive flow in the rivers/ streams of Baska (Sadar) and Tamulpur Sub-Divisions of Baska District; floods in Nalbari District can be expected within 4 hours (*in the Northern portion*) to 36 hours (*in the Southern portion*). That would give ample time to evacuate people and make other preparations for the floods.

#### **Dissemination of FLEWS (Flood Early Warning System)**

Executive Engineer, WR Division will instruct sectional officers and SA /Khalasi to keep constant vigil on water levels and inform EE on any increase in the level of water. EE will take necessary temporary measure to avert any breaches. The FLEWS received from SEOC and NESAC would be sent to the inhabitants of nearby river by the staff of control room through runner of W.T.message.

3.11.15 **Waterways:** The Waterways that can be used during floods to run Motorboats and Country-boats are as follows:

1. Brahmaputra River;
2. Pagladia River;
3. Borolia River;
4. Borolia [*southern channel*];
5. Nona River;
6. Ghogra River.
7. Chawlkhowa River;
8. Chengnoi River;
9. Pavanoi River.
10. Mora Pagladia River;
11. Nadla Channel;
12. Tihu River; and several other streams and channels. Moreover, if any of the expected motorable roads gets cut off during high floods, Relief Supplies are to be ferried by machine/ country boats.

- Recommend proposal for repair & restoration of damaged infrastructure under State Disaster Mitigation/Hazard Mitigation Fund/SDRF
- Review annually the mitigation and prevention measures taken by the department and line agencies
- Review annually the hazard risk and vulnerability assessments of the district and direct actions for the next year and set targets
- Reduce vulnerability in the rural areas
- Establish mechanism for dissemination of Early Warning Systems in the district for hazard risks
- Establish working relationship with warning agencies in the state.

### **5.2 Health & Family Welfare Department**

- Evaluate and undertake action measures towards prevention of water and vector borne diseases after severe rainfall/flood event
- Evaluate all facilities to hazard risks, conduct district -wide vulnerability assessment of health infrastructure and define approach for mitigation and preparedness
- Estimate budget for hazard mitigation of health facilities (*both, structural and non-structural measures*)
- Create state of the art disease surveillance system to prevent outbreak
- Create fail safe communication network among selected medical facilities across the state
- Establish necessary power back-up measures for primary and select secondary and tertiary tier of medical facilities

### **5.3 Police Department**

- Ensure that all Response Forces/First Responders are housed in structurally safe buildings and are backed with adequate tools to stage full scale response
- Undertake vulnerability assessment of all facilities and initiate mitigation actions

### **5.4 Public Works Department (Buildings)**

- Develop Department level preparedness plan
- Identify core teams for technical/engineering support/decision making in disaster situations
- Develop manuals and guidelines for safe construction practices
- Conduct training of staff in latest advancements of engineering, demolition techniques, health monitoring of infrastructure assets, seismic strengthening and retrofitting of buildings, critical infrastructure protection, DM
- Maintain inventory list of all key equipment and tools in the district that can be mobilized for response and recovery efforts

- Integrate risk reduction as a component in design and construction practice of the department
- Identify weak lifeline buildings and develop strategy for strengthening/retrofitting so as to minimize damage/disruption
- Undertake vulnerability assessment of buildings and determine mitigation options
- Establish mitigation funds within the department
- Ensure/undertake checks that infrastructure remains in operational condition.
- Preposition emergency supplies and equipment/tools in high risk concentration areas
- Undertake prevention/protection/structural rehabilitation/retrofitting measures of lifeline buildings
- Provide regular capacity building/training to the staff to help them undertake vulnerability assessment of critical lifelines and develop mitigation options
- Ensure that all design and construction in the department are in compliance to Indian Construction Codes of Practice (BIS) and National Building Code
- Work towards Performance Based Seismic Design
- Categorize structural performance/vulnerability assessment on the basis of the performance based design parameters
- Establish 'Building Clinic' with adequate trained staff to advise on strengthening and retrofitting of lifeline buildings/infrastructure

#### 5.4 Public Works Department (Roads & Bridges)

- Integrate risk reduction as a component in design and construction practice of the department
- Identify weak communication/infrastructure links and develop strategy to minimize disruption
- Undertake vulnerability assessment of assets and determine mitigation options
- Establish mitigation fund within the department
- Ensure/undertake checks to ensure the infrastructure remains in operational condition should disaster occur
- Preposition emergency supplies and equipment/tools in high risk concentration areas
- Undertake prevention/protection/structural rehabilitation/retrofitting measures of critical infrastructure or connectivity links
- Provide regular capacity building/training for staff to undertake vulnerability assessment of critical lifelines and develop mitigation options
- Ensure that all design and construction in the departments are in compliance with the Indian Construction Codes of Practice (BIS)
- Work towards Performance Based Seismic Design
- Categorize structural performance/vulnerability assessment on the basis of the performance based design parameters

#### 5.4 Public Health Engineering Department (PHED)

- Develop guidelines for consumption/purification of water during disaster
- Ensure departmental/public awareness and encourage economic use of water
- Train department engineers for better preparedness.
- Plan movement of staff to disaster affected areas, delegation of responsibilities
- Restore plans for damaged facilities
- Maintain emergency stock of supplies (pre-contract agreement with suppliers)
- Undertake conditional assessment of existing infrastructure
- Undertake risk assessment of the departmental facilities and site recommendations

- Protect/strengthen the supply network with alternative/complementary source
- Undertake protection measures of distribution infrastructure (pumps, motors and the like)

#### 5.5 Agriculture Department

- Drought Monitoring System
- Pest and Disease Monitoring System
- Provide information to undertake crop insurance
- Identify storage houses/godowns for early harvest
- Establish Early Warning mechanisms

#### 5.6 Water Resource Department

- Undertake flood protection and erosion management measures
- Construction/strengthening/maintenance of embankment
- Undertake measures and direct action towards ensuring embankments safety
- Undertake mitigation actions across the department following the design criteria mentioned in the guidelines for the preparation of DPR of Central Water Commission, Govt. of India.
- Conduct pre-monsoon preparedness meeting in April every year to take stock of current status, discuss about critical areas, revisit protocols and operating procedures, check preparedness
- Identify active channels causing erosion and take remedial measures

#### 5.7 APDCL – Nalbari Division

- Conduct vulnerability assessment of buildings and power infrastructure
- Determine fragility of infrastructure to hazard risks and determine mitigation and non-structural mitigation actions
- Establish mitigation fund and prioritize actions for risk reduction within the power sector
- Identify weak spots in allied/linked infrastructure or power dependent sectors and recommend actions

#### 5.8 Education Department

- Undertake vulnerability assessments of education infrastructure and publish analysis/findings
- Identify structural and non-structural risk reduction/mitigation measures
- Develop District Level Mitigation Plans
- Work towards developing safety policies and safety rules that can be applicable to both Government and Private run institutions
- Ensure hazard resistant designs is an integral part of design and construction of new buildings/rooms or any expansion activity

#### 5.9 Panchayat & Rural Development Department

- Ensure that all development schemes routed through the department or through various schemes directed for implementation, taking into consideration of DM requirements.
- Undertake measures to strengthen the department buildings across the state

#### 5.10 Urban Development Department

- Support activities to undertake risk assessment of the city

- Incorporate/integrate DM concerns or hazard resistant construction into process of: Land Use plan, Building Byelaws, General development control regulations, City Development Plan, Master Plan
- Facilitate developing a robust response plan in urban areas
- Prepare department specific hazard mitigation plan

#### 5.11 Animal Husbandry & Veterinary

- Encourage farmers for insurance of livestock
- Establish monitoring mechanism for disease control

#### 5.12 Soil Conservation Department

- Conduct vulnerability assessments relating to soil erosion hazard of infrastructure it built or look after.
- Establish mitigation fund and prioritize actions for risk reduction
- Ensure timely completion of works undertaken before flood season

#### 5.13 Irrigation Department

- Conduct vulnerability assessments relating to flood/drought/ erosion hazard of infrastructure it built or look after.
- Establish mitigation fund and prioritize actions for risk reduction
- Ensure timely completion of works undertaken before flood season
- Undertake flood protection management measures at vulnerable structures/canals systems
- Maintain canal embankments/guide bunds/affix bunds including canal structures
- Conduct pre monsoon preparedness meeting in April every year to take stock of the current status of irrigation projects, discuss critical areas, revisit protocol operating producers, preparedness, checks and others
- Gather information related to warning of impending floods/droughts based on hydrological and meteorological information
- Identify drought like areas for necessary steps towards irrigation supply in areas covered under irrigation

## **CHAPTER-VI PREPAREDNESS MEASURE**

### **6.1 Roles of responsibilities of DDMA for preparedness measures**

**The Chairman DDMA will ensure the following task**

#### **PREPAREDNESS & MITIGATION MEASURES (AT NORMAL TIME)**

- i. Once a quarter check that the database for multi hazard district DM plan is updated.
- ii. Once a month check that all equipment in the District Emergency Operation Centre is functional & the maintenance is carried out for each equipments including IT items and communication facilities. (An inspection register will be maintained for this purpose & t each inspection will enter the date of inspection, name & sign.
- iii. Quarterly review meeting of DDMA with all line deptt in respect of all disaster preparedness & mitigation activities like strengthening of embankments, construction/strengthening of vulnerable roads, construction of multi purpose safe shelters, digging/renovation/repair of tube wells with raised platforms for drinking water, arrangements for stocking of relief materials, equipments, medicines, hygiene & chemicals before disaster season etc.
- iv. Fresh Training for all newly posted /refresher training of all old officials in disaster management who are part disaster management to be carried out in a planned manner once a year.
- v. Quarterly meeting with the NGO/volunteers/NCC/NSS/NYKS/Scout & guide/ APDA MITRA/Pratirodhi Bandhu co-ordination meetings are held at least quarterly. .
- vi. Lat-Long of vulnerable areas, schools/shelters, helipads & dropping zones should be available with the DEOC.
8. Awareness campaign strategy before the disaster season in terms of warning dissemination procedures, individual/house hold safety tips etc planned.

#### **PRIOR TO COMMENCEMENT OF DISASTER SEASON**

- i. The multi hazard disaster management plans of the district to be completed in all respects with latest up to date database.
- ii. Fully equipped & operational DEOC. Equipments & power back up system are checked for functionality. Communications tested & established with IMD, SEOC, and departmental control room.
- iii. All members of DDMA are fully trained & aware of their roles & responsibilities as per the DM plan.
- iv. All persons in DEOC are fully trained & aware of their responsibilities.
- v. Duty roster for DEOC prepared & all informed.
- vi. All storage godowns, safe shelters of all the vulnerability pockets are cleaned, maintained, fully stocked as per the Assam Disaster Management Manual 2015.
- vii. Meetings of DDMA are conducted & all functionaries of different department are to be fully apprised of their roles as per the Assam Disaster Management Manual 2015.
- viii. Preparedness activities of all line departments like strengthening of embankments, sinking/repair of tube wells & ensuring raised plat forms/raised grounds so that they do not get sub merged, stocking of medicines& allocation of medical/para-medical staff as per the Assam Disaster Management Manual 2015, operationalization flood gauges & rain gauges with communication facilities etc are completed in all respects.
- ix. Identification of risk and vulnerable structures, buildings for earthquake preparedness. Deployment of volunteers, doctors, nurses, beds, food materials with drinking water to be arranged.
- x. Mock drills conducted at district and circle level.
- xi.Co-ordinate in organizing meeting of all the stockiest held & each one given the level of emergency stocks that they have to maintain during the disaster season (dry foods, kerosene, patrol, diesel. medicines, candles, match boxes, daily house hold items etc. )
- xii. Awareness campaign at community level for better preparedness.

### **ON RECEIPT OF WARNING**

72 HOURS PRIOR (All are warned, normal activities to continue, movement of vulnerable community like fisher men are restricted if special warnings issued)

- i. DEOC will start disseminating warning to the stakeholder for necessary action.
- ii. Exact details of the implications of the warning checked from the IMD & state EOC
- iii. Warning with clear directions for the Govt officials, NGOs especially for the vulnerable community are passed through the fastest means of communication & checked back for accuracy at the other end.
- iv. Duplicated communication is established with the important departments, IMD & all the districts, subdivisions and blocks.
- v. Meeting with the line depts. & NGOs involved in DM is held & clear directions for each ones responsibilities are spelt out as per the DM plan
- vi. Warning issued to stakeholders to check their men, material & equipments as per the checklist & vulnerable communities, check their response mechanism as per the household & individual checklist in accordance with Assam Disaster Management Manual 2015
- vii. Stocking of all safe shelters is checked & those NOT stocked are immediately stocked.

### **48 HOURS PRIOR TO DISASTER**

- i. All the equipments of the DEOC especially the communication equipments are thoroughly checked & all power back up system are positioned.
- ii. Connectivity status of each districts, police stations, wireless stations, vulnerable points rechecked & chart at DEOC up dated with information to state EOC . Duplicated communication including police channels tested.
- iii. All the stockiest are warned to keep assured level of stocks to move at short notice.
- iv. All transporters warned to keep the assured vehicles to be hired at short notice.
- v. All rescue & search equipments moved to most vulnerable pockets located in far-flung areas.
- vi. All preparations for move to safe shelters by vulnerable community completed.
- vii. All district administration for mutual aid scheme complete preparations as per checklist to move men, material & equipments.
- viii. All NGOs/volunteers/NCC/NSS/NYKs/Scouts & guides personnel briefed about their area of operations & ready to move. Move to inaccessible pockets starts.

### **12 HOURS PRIOR**

(Move to safe shelters by vulnerable community, movement of emergency responders & volunteers with complete eqpt, materials.)

- i. District IRT is activated.
- ii. All vulnerable personnel are asked to shift to safe shelter.
- iii. All the task forces are put into operation.
- iv. All the NGOs & volunteers are put into operation as per their area of responsibility & their activities monitored through the concerned Govt officials.

- viii. The progress is constantly monitored.
- x. In case of a warning that the cyclone has abated or changed course, the same should be confirmed from authentic sources like the IMD or State Control room & information passed to all to stand down.
- xi. Information to National control room regularly.

## **ACTIONS ON DISASTER**

- i. Nominated incident commanders/OIC disaster site at each of the sites start operations to supervise rescue & Evac, relief & restoration operations
- ii. Co-ordinate all activities through incident commanders/OIC disaster site.
- iii. Opening of site control room.
- iv. Those requiring immediate medical treatment are moved to district hospitals as per the priority of evacuation spelt out by the attending doctors.
- v. The incident commanders/OIC disaster site assisted by the Magistrates /NGOs carry out an immediate assessment about the damages, casualties, gaps/short falls in terms of food, water, medical aid, clothing, shelter & send the demand to the DEOC.
- vi. The men, material & resources are moved as per the requirements & priority laid out by the OIC/ incident commander & short falls are moved from the other dists/state.
- vii. Temporary shelters, kitchens, water points are organised & operationalised.
- viii. Sanitary checks & disease surveillance are put into operation.
- ix. Arrangements for animal camp & fodder organised.
- x. Carcass disposal teams if required are activated.
- xi. A detailed assessment is carried out for damage, casualties, resource shortfall by deploying additional officers with support from the NGOs/Volunteers, PRI & community after reconnoiter & survey.
- xii. Regular review meeting with line departments, NGOs.
- xiii. All DCs are to send daily SITREP from district DEOC on 6hrly basis.
- xv. Continuous flow of information & national authorities kept informed of latest details.

## **POST DISASTER ACTIVITIES**

(Depending on the situation but preferably after three days)

- I. Compilation of departmental damage report and report from Circle Disaster Management Committee.
- ii. Assistance in terms of food material, medicines, and clothing, cooking utensils provided to the affected population controlled through incident commander/OIC of the disaster site.
- iii. All stores & materials are moved as per the detailed assessment & distributed under the supervision of Govt officers, volunteers & responsible representatives from the community.
- iv. Ensure of all drinking water sources are disinfected & activated by concerned deptt.
- v. Disinfections of the disaster site carried out.

- vii. Trauma counselling if required is carried out for affected population.
- viii. A team of Govt officials, NGOs/ local senior citizens consisting of specialists from all fields is immediately asked to prepare a detailed report starting from the activities from pre disaster season to the disaster & post disaster period bringing out all aspects of preparedness, response, restoration, rehabilitation, the detailed causes of damages &, casualties & deficiencies noticed in the plan. The detailed report must be completed in all respects & submitted within 30 days

## **POINTS FOR CONTINUOUS PLANNING, INNOVATIVE THINKING & IMPLEMENTATION**

1. All developmental plans are considered from disaster mitigation angle.
2. Continuous planning & execution of plans for providing sustainable livelihood for most vulnerable communities.
4. Alternate safe housing technology along with rainwater harvesting structures is constantly encouraged & mainstreamed for long-term vulnerability reduction.
5. Continuous Awareness campaign & encouragement for Disaster proof Habitat planning at community level including shifting from low lying areas to safe raised grounds.(with some incentives if feasible).
6. Disaster management programme like first-aid, rescue & evacuation as a compulsory part of school, college, educational institution's (both techno-tech) curriculum starting from primary level.

7. Equipping each PHC/CHC/ hospitals to provide training in first-aid round the year & making it compulsory for all citizens to learn first –aid. (Test on first-aid compulsory for any entrance exam including entry into +2level college/school, as part of test for driving license for two wheeler up wards etc)

8. One centre school/college in each GP, two at block & four at district equipped to provide training in rescue & evacuation round the year.

#### 6.2 Roles & Responsibilities of Circle Officer for preparedness

- Organising Circle Level Disaster Committee meeting in the month of February followed by quarterly meeting of CDMC.
- Quarterly meeting with AAPDA MITRA , Pratirodhi Bandhu and other volunteers
- Preparing multihazard circle level contingency plan.
- Organising circle level mock drill for flood and earthquake before the monsoon .
- Providing authentic information required by the DEOC.
- Preparing a record of previous disasters in the locality and analyzing the effects
- Preparing hazard maps of the Block & the GPs
- Mapping the cut off areas with alternate route map.
- Identification of shelter places in the maps
- Keeping a List of storage Points & facilities available, dealers of foodstuffs.
- Keeping a list of vulnerable people and area and weak points on embankments
- Creating a Control Room at the respective level and assignment of duties to the staff.
- Pre-positioning of staff for site operation centers.
- Arrangement of alternative communication/generator sets, etc
- Formation of GP/village level disaster committees and task forces
- Arrangement of boats on hire available locally.
- Deployment plan of Boat in the most vulnerable areas.
- Organizing awareness camps at GP/village levels

#### 6.3 Preparedness activities of Health & Family Welfare Department.

The Joint Director of Health Services will ensure the following preparedness activities for the health and family welfare department.

- Review district health emergency preparedness for hazard risks
- Develop district health preparedness plan and disseminate the same.
- Develop a roster of experts and establish networking of key hospitals across the district.
- Develop additional set of plan documents to address mass casualty care, model hospital contingency plan and related matters.
- Ensure all health care units across the district have a functional DM Plan
- Undertake hospital safety assessments and identify the shortcomings/gaps to be addressed
- Ensure that emergency supply stock cater to peak demand
- Establish a base for field hospitals along with basic/support services
- Impart skill and training to medical practitioners to function during disaster and post-disaster situations
- Work towards developing a cadre of volunteers trained in basic first-aid
- Impart skill and training for private medical practitioners/private sector hospitals/private pharmacy to function during disaster/post-disaster situation

#### 6.4 Preparedness activities of Public Work Department – Building Division

- Develop Department level preparedness plan

- Identify core teams for technical/engineering support/decision making in disaster situations
- Develop manuals and guidelines for safe construction practices
- Conduct training of staff in latest advancements of engineering, demolition techniques, health monitoring of infrastructure assets, seismic strengthening and retrofitting of buildings, critical infrastructure protection, DM
- Maintain inventory list of all key equipment and tools in the district that can be mobilized for response and recovery efforts
- Integrate risk reduction as a component in design and construction practice of the department
- Identify weak lifeline buildings and develop strategy for strengthening/retrofitting so as to minimize damage/disruption
- Undertake vulnerability assessment of buildings and determine mitigation options
- Establish mitigation funds within the department
- Ensure/undertake checks that infrastructure remains in operational condition.
- Preposition emergency supplies and equipment/tools in high risk concentration areas
- Undertake prevention/protection/structural rehabilitation/retrofitting measures of lifeline buildings
- Provide regular capacity building/training to the staff to help them undertake vulnerability assessment of critical lifelines and develop mitigation options
- Ensure that all design and construction in the department are in compliance to Indian Construction Codes of Practice (BIS) and National Building Code
- Work towards Performance Based Seismic Design
- Categorize structural performance/vulnerability assessment on the basis of the performance based design parameters
- Establish 'Building Clinic' with adequate trained staff to advise on strengthening and retrofitting of lifeline buildings/infrastructure

#### 6.4 Preparedness work for Public Work Department – Roads & Bridges

- Develop Department level preparedness plan
- Identify core teams for technical/engineering support/decision making in disaster situations
- Develop manuals and guidelines for safe construction practices
- Conduct training for staff in latest advancements of engineering, demolition techniques, health monitoring of infrastructure assets, seismic strengthening and retrofitting, critical infrastructure protection, DM
- Maintain inventory list of all key equipment and tools in the state that can be mobilized for response and recovery efforts
- Complete all the construction works of roads and bridges before flood season.

#### 6.5 Preparedness activities of Food, Civil Supplies & Consumer Affairs

- Stock pile resources throughout the year for emergency needs
- Monitor the stock and undertake periodic checks of stored items (ensure quality and label 'fit for human consumption')
- Prepare department wise preparedness and operational plan for distribution of supplies to people
- Complete the tender process before monsoon for selecting eligible bidder in order to supply GR items during emergency.
- Co-ordinate with FCI for procurement of rice under OMSS before starting monsoon.

#### 6.6 Preparedness activities of Fire & Emergency Services

- Update the resource inventory of each Fire station located in the district and submit one copy to DDMA.
- Repair the damaged boats before starting monsoon in order to make them functional
- Conduct trial of functional IR boat to check their fitness.

- Conduct trial of all the machinery and equipments to check their fitness before starting monsoon.
- Conduct fire safety audit in important establishments like DC Office, SP Office, Health Institutions, Educational Institution, Shopping Mall etc.
- Conduct familiarization exercise in vulnerable areas.

#### 6.7 Preparedness activities of Social Welfare Department

- Integrate DM concerns in the ongoing welfare development schemes in the district.
- Identify vulnerable population and social groups which require special attention during disaster
- Undertake training of communities and build awareness of the local environment and associated hazard risks and community measures which can reduce vulnerability within their location, promote community based disaster risk management
- Identifying/communicate resource management at local level/community level to assist themselves to meet immediate needs of water, food, clothing and shelter (promote self-help)

#### 6.8 Agriculture Department

- Undertake skill up gradation of department staff and farmers
- Prepare district preparedness plan to manage drought and hazards like floods, pest attacks and others
- Generate awareness on hazards, weather monitoring and suggest actions
- Identify location for raising community nursery
- Identify institutions /agencies who can supply flood resistance / drought resistance seed variety.
- **Generate awareness about the crop insurance among the farm families.**

#### 6.9 Water Resource Department

- Update District contingency plan in consultation with the administration
- Update embankment maintenance manual
- Activate flood monitoring in all flood prone areas and capture information through flood bulletin
- Establish coordination linkages with village teams for embankment strengthening and safety
- Undertake mapping of vulnerable areas and risk spots
- Complete all the repair and restoration work before starting monsoon.
- Organise training on departmental disaster management plan among the technical and non technical staff of the department.
- Prepositioning of all the flood fighting materials in vulnerable areas before the starting the flood season.

#### 6.10 Assam Power Distribution Company Ltd ( APDCL)

- Undertake Disaster Management plan preparation for the department.
- Undertake condition surveys of existing infrastructure and pin-point areas for intervention
- Upgrade skill and training of staff in Disaster Management
- Take up restoration plans of supply following an interruption across services/communication to all service agencies for preparedness measures and installation of back-up measures
- Check all the infrastructure before storm season
- Check all the transformers which are installed without barricade and complete the barricade with wire fencing immediately

#### 6.11 Education Department

- Develop a departmental plan of Disaster Management in the district.
- Ensure all schools/institutions within the department jurisdiction (Government and Private) have Building Level Emergency Response/Preparedness Plan

- Undertake training of teachers in preparation of School Disaster Management Plan
  - Undertake training of children and school staff in basic first-aid, select search and rescue methods.
  - Organize rallies and education programmes to raise awareness
  - Encourage volunteer participation in DM activities and conduct preparedness drills
  - Conduct mock drills at periodic interval
- 6.12 Urban Development Department
- Ensure preparation of disaster management plan for every ward to meet any type of exigency
  - Provide training and capacity building to department staff in disaster management
  - Submit Ward Disaster Management Plan to DDMA.
  - Conduct periodic mock drill for fire, earthquake and urban flood.
- 6.13 Animal Husbandry and Veterinary
- Determine livestock population risk to various hazards
  - Identify list of possible shelter points
  - Maintain livestock update and list down essential supplies/equipment required in case of disaster
  - Train staff to ensure/undertake quarantine requirements
  - Plan response and recovery operations
  - Prepare departmental district level DM plan.
- 6.14 Preparedness activities of Soil Conservation Department
- Undertake DM plan preparation for department in the district.
  - Undertake survey of existing bunds, channels, water bodies, erosion prone areas, periphery bunds, graded bunds, drainage channels, water bodies that come under its jurisdiction and identify areas for intervention
  - Take short term, medium term and long-time preventive measures
  - Help DDMA to identify the vulnerable areas, infrastructures and incorporate the same into DDMP
- 6.15 Irrigation Department**
- Undertake DM plan preparation for department at district level
  - Prepare Preparedness plan for manage drought & drought like situation
  - Undertake condition survey of existing bunds, irrigation channel & drains that come under its jurisdiction and identify areas for intervention
  - Take short term, medium term and long-time preventive measures

**CHAPTER-VII**  
**CAPACITY BUILDING & TRAINING MEASURES**

Training and capacity building is an important component of the Disaster Management Plan. While ASDMA as well DDMA has been organizing disaster related training to the major stakeholder of Govt. department, now time has come to integrate this training and capacity building programme in the ongoing programme of relevant Govt. Department. Considering the importance of training & capacity building, following programmes are sorted at district level for major stakeholders.

7.1 Training & Capacity Building Programme to be organised by DDMA

Sl	Type of Training & Capacity Building Programme	Level of Participants	Ideal size for each batch of trainees	Duration of the training ( In days)	Resource Person	Time for organizing the programme	Source of Funding
1	General Concept of Disaster Management, various statutory arrangement at State & National Level , DM Act 2005	New recruits of line department	50	2	DPO, Field Officer , Project Manager from ASDMA	January	ASDMA DRR
2	Orientation on District Incident Response Team	Designated Officials of IRT members as per Govt.notification	40	1	Project Manager from ASDMA, Faculty from NIDM	January	ASDMA DRR
3	Orientation to District Heads of the Department on Assam Disaster Management Manual & SDRF norms	Circle Officers , Heads of relevant line department	40	1	ADC & CEO ,DDMA , DPO , Project Manager from ASDMA	February	ASDMA DRR
4	Orientation to NGOs/ CSOs/VOs for their roles & responsibilities ,GO-NGO protocol	Chief Functioneries of NGO/VOs/CS Os.	40	2	ADC & CEO ,DDMA , DPO , Project Manager from ASDMA, IAG representatives	March	ASDMA DRR
5	Orientation to preparation of Departmental	Nodal Officers of DM from line	40	1	DPO , Project Manager	March	ASDMA DRR

	Disaster Management Plan	departemtn			from ASDMA, Faculty from NIDM		
6	Co-ordination meeting with AAPDA MITRA & PRATIRODHI BANDHU volunteers	AAPDA MITRA ,Pratorodhi Bandhu , Selected VDP ,NCC,NSS volunteers	50	1	ADC & CEO ,DDMA , DPO, FOs, IAG representatives	March , June & October	ASDMA DRR
7	District level Fire & Earthquake Mock Drill	All major line department		1	SDRF ,NDRF ,Police ,Health Officials	December	ASDMA DRR
8	Training on Crowd Management	MVIs,BDOs ,Circle Officers ,OCs of Police Station & Police outpost ,GP Secretaries ,Gaon Burhas	50	1	SP ,DTO, SDRF ,NDRF	February	ASDMA DRR
9	Training on mass carcass disposal	DVO,SDVO ,SP.ASP , Circle Officer ,BDO ,SDM&HO , Officials from Municipality & Town Committee	40	2	Expert from Veterianr y Colleges , ICAR	February	ASDMA DRR
10	Training on Search ,Rescue & 1 <sup>st</sup> Aid	Police personnel , NGO workers , Volunteers from NCC ,NSS ,VDP , AAPDA Mitra volunteers , Pratirodhi Bandhu Volunteers	40	3	SDRF ,NDRF ,Resource Person from Health Departme tn	Twice in a year	ASDMA DRR

### 7.2 Training & Capacity Building Programme to be organised by Revenue Circle Office

Sl	Type of Training & Capacity Building Programme	Level of Participants	Ideal size for each batch of trainees	Duration of the training ( In days)	Resource Person	Time for organizing the programme	Source of Funding
1	Orientation on	Lot Mondal,	50	1	Circle	February	Training

	SDRF norms	Gaoburha, Members of CDMC & Circle Level Task Force.			Officer , Field Officer & DPO		& Capacity building component of ASDMA Budget
2	Quarterly meeting with volunteers	Aapda Mitra ,Pratirodhi Bandhu , NCC ,NSS ,VDP	50	1	Circle Officer , Field Officer & DPO	Jan , April , July , October	Do
3	Half yearly meeting with VLMCC	Memberso f VLMCC	50	1	Circle Officer , Field Officer	January & August	Do
4	Circle Level Flood Mock Drill	All major circle level line departments	-	1	SDRF ,NDRF ,Police ,Health Officials	March	Do
5	Co-ordination meeting on Block School Safety Committee	Circle Officer , Field Officer , BEEO , MPW , Police personnel , SDRF	30	1	BEEO & Field Officer	January & August	Do

### 7.3 Training & Capacity Building Programme to be organised by Education Department

Sl	Type of Training & Capacity Building Programme	Level of Participants	Ideal size for each batch of trainees	Duration of the training ( In days)	Resource Person	Time for organizing the programme	Source of Fund
1	Orientation to the National School Safety Policy	BEEOS, Sis, District level officials of education department	50	1	IS,BEEO ,DIET Lecturer	January	10% Budgetary provision of the Deptt.
2	Orientation to the School Teachers on “ Great Assam School Shake-out Programme”	School Focal Point Teachers	50	1	Fos, AAPDA Mitra Volunteers, SDRF personnel	August	Do
3	Conduct of Great Assam School Shake –out Programme	Students , Teaching & non teaching staff of School	-	1	School Focal Point Teachers & Volunteers	August	Do
4	Training to Master	School Focal	50	2	DIET	January	Do

	Trainer for Preparation of School DM Plan	Point Teachers, CRCC			Lecturer , SDRF personel		
5	Training to SMC members on preparation of School DM Plan	SMC members	50	2	CRCC & School Focal Point Teachers	April	Do
6	Training on 1 <sup>st</sup> Aids ,Search & Rescue	School Focal Point Teachers	50	3	SDRF ,AAPDA Mitra , Resource Person from Health Department	April & October	Do
7	Training on 1 <sup>st</sup> Aids ,Search & Rescue & implementation of School DM Plan	Students	50	2	School Focal Point Teachers	April , July & November	Do

#### 7.4 Training & Capacity Building Programme to be organised by PWD –Building & Road Division

Sl	Type of Training & Capacity Building Programme	Level of Participants	Ideal size for each batch of trainees	Duration of the training ( In days)	Resource Person	Time for organizing the programme	Source of Fund
1	Training to RVS	JEs & AEs of district level line department	30	2	Master Trainer trained by ASDMA , EE,PWD –Roads & Building , Lectures from Poly technic	January	10% Budgetary provision of the Deptt.
2	Training on earthquake resistance technology (ERT)	AEs of all district level line department	30	2	EE,PWD –Roads & Building, Lectures from Poly technic & Engineering Colleges	February	Do
3	Training on Non Destructive Test	JEs of all district level line department	30	2	Trainer from PWD – Bulding , Engineering	October	Do

					Colleges		
4	Training for Masons on ERT	Masons	50	2	AEs of PWD Building & Roads, Lecturers from Polytechnic	December	Do
5	Training on Building Bylaws	EE,AE,JE of PWD Building, Municipalities, Town Committees, SSA, RMSA, NHM, DRDA, APDCL	50	2	Engineering Consultant of ASDMA, Master Trainer from Chief Engineer Office – PWD(Building)	November	Do

#### 7.4 Training & Capacity Building Programme to be organised by Health Department

## **CHAPTER -VIII RESPONSE & RELIEF MEASURES**

### **DISTRICT EMERGENCY OPERATION CENTRE (CONTROL ROOM)**

#### **8.1 DEOC (Control Room):**

District Emergency Operation Centre will function as DEOC (DEOC) and has been set up to help the Disaster Management Team members to understand the structure and functioning of DEOC. Following the important Three C's i.e. Command, Control and Communication for effective response in an emergency, we will be able to minimize the hardships of the community and improve the quality of the process of recovery.

#### **8.2. Purpose of the Control Room:**

**The DEOC under the control of Deputy Commissioner will operate round the clock and will be the nerve center to**

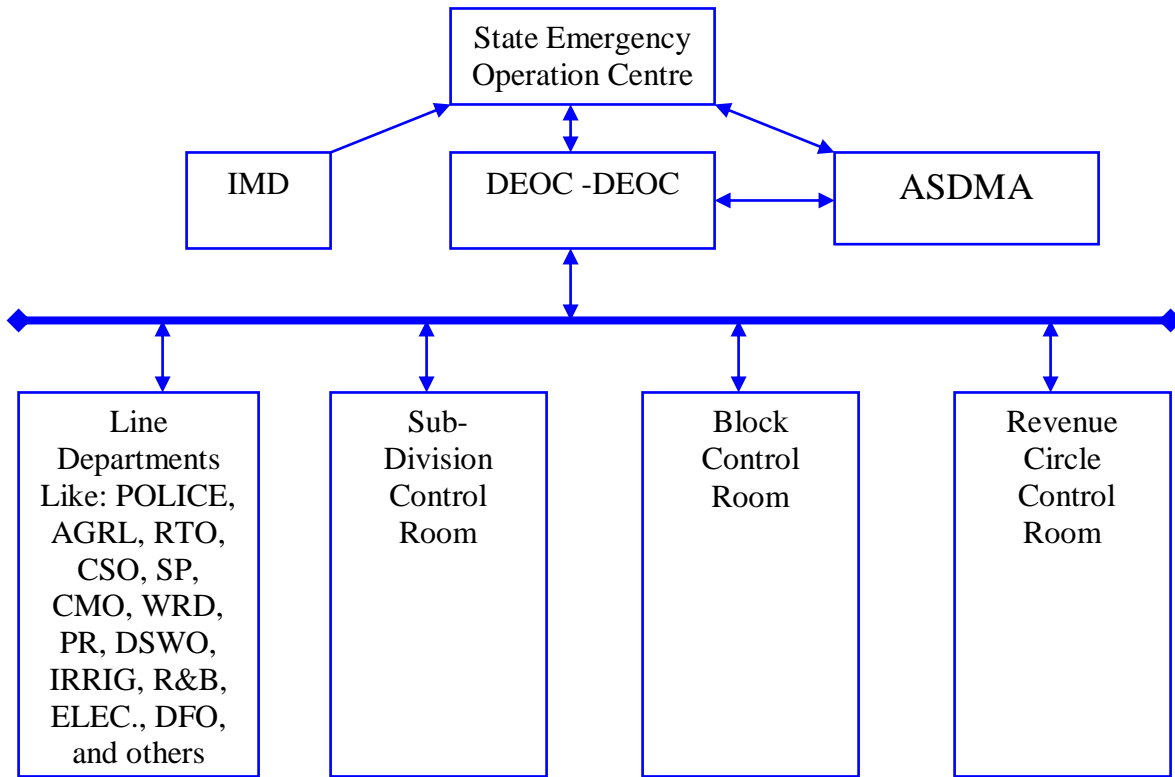

- ❖ **Monitor**
- ❖ **Co-ordinate**
- ❖ **Implement the actions/activities for Disaster Management.**

In a disaster time the DEOC will operate under the central authority of the Deputy Commissioner, exercising emergency power to issue directions to all departments to provide emergency response service. He will also co-ordinate with the State Response Machinery like: State Relief Commissioner, Assam, Dispur and Assam State Disaster Management Authority for appropriate support and smooth flow of information and NDRF. The Control Room is manned round the clock. The DEOC is placed in the District Emergency Operation Centre of the DC Office.

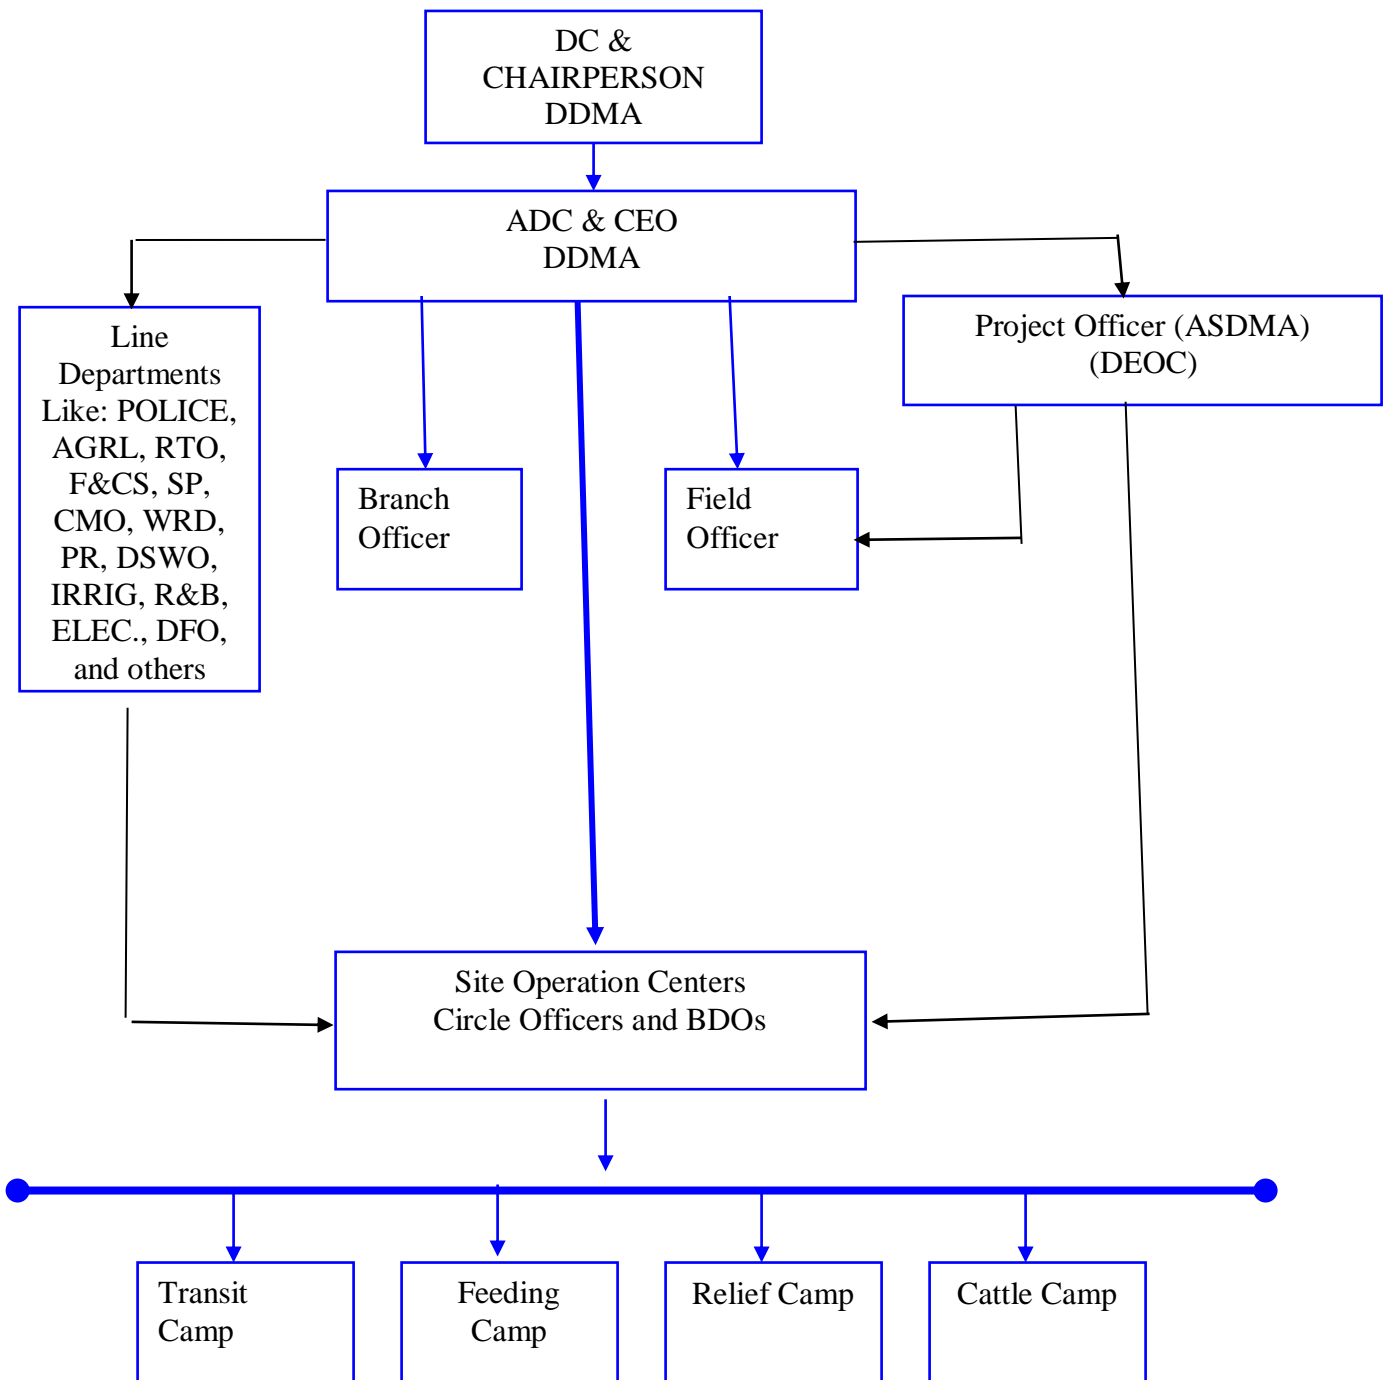

#### **8.3. Disaster Management Information Centre:**

DEOC will also function as Information Centre. Disaster management information centre will work as the nerve centre for all emergency events and disasters and is the hub of all activities. The principle role involves collection of data, analysis and dissemination of information to all relevant organisations. It coordinates the flow of information with respect to activities associated with relief operations. During the normal times it maintains a systematic database of the resources available, important phone numbers, names and addresses of important government and non government officials, international bodies, NGOs etc.

**8.4 Information Flow Chart of the DEOC:**

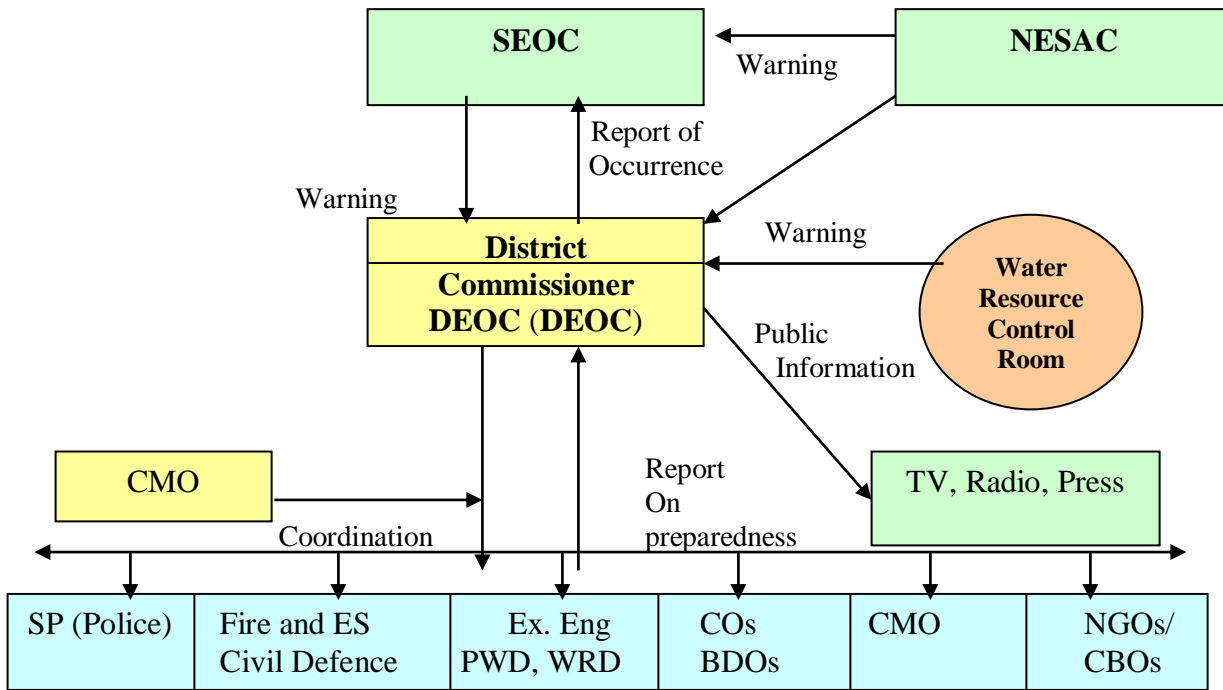

**8.5. Co-ordination Structure at District Level Control Room:**
